Local Board Examines Fifty-eight More Men

The local registration board conducted physical examination for 58 Class 1 men yesterday. Judging by the results of the examination, this was the best group of men, physically speaking, that has been called before the board, as none were rejected, although a few cases were referred to the medical advisory board for further consideration and a few were accepted for limited service, being unable to pass the examination in all respects. Five men were transferred to other counties for examination, and four failed to appear.

The local medical examiners were Doctors Creighton, Hoxsey and Stockman. Dr. Damerell, who has been acting as examiner was out of the city and unable to return in time. Dr. Mitchell, who has also served on previous occasions, is in Denver, recovering from a serious illness.

Glen Denton was excused from examination in order that he might go at once to Omaha, where he desired to enlist in the Navy.

The results were as follows:

PASSED

Alfred C. Brown
Guy W. Dunbar
Ralph T. Fumbleson
Walter Fortenier
Harry E. Oberg
Frank G. Huppert
Wm. S. Dunn
Wm. J. Bloom
Joe Perry
Frank Richard

Geo. Engstrom
Geo. A. Mabson

Applied Mathematics.

"Children, children," exclaimed the fond hen mamma, cackling loudly in joy. "Gather about quickly and see the bee-yew-ful, long worm I have just found. Isn't it a dream? Now the problem is, how will we divide it?" "Mother, allow me to suggest," said the tiniest chick, who was destined to become a large, heavy-set rooster, "that the problem might be solved by long division."

About 60,000 officers and men are engaged in coast patrol work of the Navy.

Committee Revises the Liberty Loan Quota

Owing to the fact that Blue Hill is only one mile from the Adams county line and the Liberty Loan committee in that county are insisting that the people living there buy their Liberty Bonds of Adams county banks, regardless of where they do their other banking business, which takes away from Blue Hill the bond purchases of many who regularly do business with Blue Hill banks, the county Liberty Loan committee last night, after the first section of this paper had been printed, revised the quota for the different towns and vicinities of this county. The revised quotas are as follows:

Red Cloud	\$75,000
Blue Hill	45,000
Guide Rock	38,800
Bladen	36,900
Cowles	20,000
Inavale	15,000
Rosemont	12,000

Wasting Bread Really Helps the Kaiser

He who wastes a slice of wheat bread is actually hindering the prosecution of the war," said G. W. Wattle, food administrator for Nebraska. "He is also endangering our chance for victory 'over there.'"

"One year ago we ceased to be a neutral nation. We pledged the Allies wheat. We have not made good on our promise. We must make good, and the only way we can make good is to do what we have promised. Any person who keeps wheat from the Allies is guilty of contributing directly to the success of the enemy."

"We must make good, and we must limit our consumption of flour to the minimum, one and one-half pounds per person each week at the most. 'Do your patriotic duty.'"

Wheat Prospects Good

From all present indications Nebraska will be no slacker when it comes to filling Uncle Sam's bread box next fall, according to the bulletin of the Nebraska State Board of Agriculture. At no time will the efforts of Nebraska's farmers be found wanting when there is a governmental demand to be met. Conditions are, however, the governing factor and last year saw Nebraska's contribution to the nation's food supply decreased in almost an inverse ratio to the effort expended by our farmers. Such was the effect of conditions.

It is still too early to say that our wheat crop is assured. Nebraska conditions, however, are not widely variable. Preliminary estimates would tend to the belief that our wheat crop is ninety per cent good,—that is, ninety per cent of the acreage planted to winter wheat is in first class condition. This condition is, of course, not uniform throughout the state nor throughout each community. In practically every county may be found spots where the wheat winter-killed early and is some of these communities pessimism runs high as to the food situation for the coming year. Such conditions are purely local, however, and are greatly offset by the prevailing excellent condition elsewhere. It is also to be noted that where wheat winter-killed the farmers have lost no time in getting in spring wheat in its place. This was done to some extent last spring but not very extensively. With this re-seeding Nebraska's wheat crop for 1918 should reach a figure that we have never before seen. Of course, there is "many a slip twixt cup and lip," but the indications are that Nebraska is going to see a banner wheat crop.

With the Four-Minute Men

The subject for the four-minute speakers at the Orpheum during the coming week is to be the Third Liberty Loan. The speakers are:

Sat., April 13... Judge A. D. Raggy
Wed., April 17... J. R. McNeer
Sat., April 20... R. McNeer

There is a Difference in Lenses

Just as there is between a piece of pure gold and that containing alloy, the lenses used by me are the finest that can be had. These come in the rough and are ground until they exactly meet the requirements of your particular eye trouble. One cannot be too careful about the eyes. The matter of a dollar or so should not enter into the calculation. This store refuses to ask for your patronage by price alone—the cure is the thing desired by me or well as yourself. Even so, you will find the charge unusually low, taking into consideration the high quality.

It will be to the interest of your eyes to have them examined here

A Good Designer is an Artist

If you knew of the skill and care that goes into the designing of garments that are worn in the fashion centers you would understand why designers are paid almost fabulous salaries.

We take care to see that only the coats and suits designed by world's cleverest creators are found in our coat sections.

You will not see better style, fabric or workmanship in the apparel of the most fashionable women in New York than you can get right here in Red Cloud.

Better still, you need not pay New York prices.

SEE AND TRY A DeLaval Cream Separator

We do not believe that a farmer who knows anything about farm machinery could be induced to buy any separator other than a DeLaval after he had seen the latest improved DeLaval machine and had given it a trial.

It is a fact that 99 per cent of all separator buyers who do SEE AND TRY A DELAVAL machine before buying purchase the DeLaval and will have no other. The 1 per cent who do not buy the DeLaval are those who allow themselves to be influenced by some other consideration besides real genuine separator merit.

If you are thinking about buying a cream separator we will consider it a favor if you will permit us to set up a DeLaval for you on your own place and have you give it a fair trial.

You will be under no obligation to buy the machine if it does not make good all our claims, and should you decide to keep it and cannot conveniently pay cash, you may do so on such easy terms that it will actually save its costs while you are paying for it.
